PEACOCK DAHLIA FARMS

DAHLIALAND, NEW JERSEY

WE WANT to thank our thousands of friends and customers who have written us about their wonderful success with Peacock Dahlias. We also want to thank the tens of thousands of customers for their confidence in our stock. We are acknowledged the largest Dahlia growers in the world, with the largest and most comprehensive trial grounds. Here we grow all varieties under exactly the same condition and it is this rigid test that enables us to guarantee our stock to give entire satisfaction. This is also the acid test for our new creations, which enables us to introduce them with the full assuredness they are the best of their colors and types.

On the following pages will be found the plain truth, describing them as they grow with us, and the average color; for flowers vary in color at different seasons, on different soils, in different climates and under different conditions.

ROOTS vs. PLANTS We do not wish to enter any controversy, but want to say, so far as flowers are concerned, there is no difference in results between roots and plants. Given the proper care, they will give equally good results. Even the growers who recommend plants as better than roots insist on roots when buying, because they are worth more. Otherwise, plants would not be offered at half price.

Roots are more easily handled, ship long distances better, and give more roots for the following year. Plants, however, enable growers to offer varieties much more quickly, where stock is limited, and at lower prices than would be possible for roots. This also allows the dahlia enthusiasts to get just the varieties they want, even after root stocks are exhausted; or, to get twice as many plants for a given amount of money.

DAHLIALAND This is truly the land of Dahlias. It is reached by direct roads from Williamstown, New Brooklyn, Atco, Tansboro and Berlin; being 3 miles from Berlin and 1½ miles south of the Famous White Horse Pike on the Taunton Road through Tansboro to Williamstown.

To reach us by railroad from Philadelphia, take ferry at foot of Chestnut Street, and ask for ticket to Williamstown Junction Station, Dahlialand.

We cordially invite all to visit DAHLIALAND and to see for themselves the LARGEST DAHLIA FARMS IN THE WORLD—THE HOME OF THE WORLD'S BEST DAHLIAS.

ORDER EARLY It will greatly facilitate shipments if orders are sent in early. We aim to send out orders the same or the next day after receipt, but during the rush season this is impossible—hence the advisability of ordering early. If you so desire we will reserve and send at planting time or any date you name, otherwise orders go out at once, weather permitting.

Guarantee. We guarantee every plant, bulb or root sent out by us to be just as represented, absolutely true to name, reach destination safely in perfect condition, and prove entirely satisfactory; we will cheerfully replace any that should prove otherwise. You run absolutely no risk in ordering from us.

Terms. Cash with order. Remittances may be made by Bank Draft, Post Office or Express Money Order, at our expense and our risk.

Forwarding. Dahlia Roots and Plants are sent by mail postpaid at prices named herein.

Errors. While we exercise every care, errors may occur occasionally. In such a case kindly notify us at once, and correction will be promptly and cheerfully made.

Name and Address. Be sure and write name and address plainly on each order or communication.

Reference. Berlin National Bank, Berlin, N. J.

How to grow **Eliza London Shepard**. The illustration shows the wonderful growth. The terminal bud was retained and 4 pairs of shoots removed and an 11 inch flower was produced. The next branches of course bloomed first, as fast as the terminal buds appear, the growths at the base of 4 pairs of leaves are removed. This throws the strength into the disbudded blooms. The lower branches as they develop are treated the same, giving a succession of blooms until killed down by frost. The plant in the illustration is 6 feet high.

PRESIDENT HOOVER Informal Decorative. Size 8" x 5". Height 6½ feet. Color, peach red, blending to begonia rose; very bright and luminous. Reflex begonia rose, veined and suffused lavender. A thoroughbred, being a cross of Jersey Beauty and Papillon. The flowers have the beautiful formation and size of Papillon, with the depth, full high center and long stems of Jersey Beauty. The plant is of the Jersey Beauty type and habit of growth, but is larger, stronger and sturdier. It is an extremely early bloomer on long stems. The plant is a strong vigorous grower, with dark green healthy foliage that is resistant to disease and insects.

President Hoover did well every way the past season. Thousands of letters told us of the great success all over the world in all kinds of soil, in every climate, and under all conditions. It is absolutely healthy under all conditions. Being a tall grower, it should be staked, the same as Jersey Beauty.

See natural color reproduction on front cover page. Strong, field-grown roots, \$5.00 each; strong plants, \$2.50.

ELIZA LONDON SHEPARD I. D. Size 11" x 5". Height 6 feet. Color, a clear rich luminous orange gold; reflex, a deeper shade of the same color. It has been designated the Dahlia Beautiful. It is the ideal decorative form, and is carried facing to upright on long, straight, rigidly stiff stems, well supplied with foliage. The flowers are always perfect. It can be grown to a single bloom to the plant, with a perfect exhibition center, or can be pinched back two or three times and produce thirty-five or more large perfectly formed commercial blooms. The flower is extremely full but with long pointed bud-like center and lasts a long time on the plant or after being cut. The plant is a strong, vigorous, luxuriant grower that will grow anywhere and will be especially valuable in the South and on the Pacific Coast, because of its fullness of center late in the season, when so many good varieties come with open centers.

It was selected and named for Mrs. Shepard, who while president of the Women's Auxiliary Legion, and in attendance at the Legion convention in Philadelphia in 1926, visited our farms and was so enthusiastic over our Dahlias. It is truly the most glorious golden variety and worthy to bear the name of so notable a citizen of the golden state. We quote from a letter from a customer in Miami, when sending an order for January 15th planting. "The Dahlias sent us last September bloomed wonderfully. Eliza London Shepard was the most gorgeous; Marie, the freest bloomer and King Midas the largest. This is a most remarkable tribute to Dahlias blooming in Florida in the month of December. Strong field-grown roots, \$5.00 each; strong plants, \$2.50.

PETER PAN I. D. Size 8" x 4". Plant 2½ feet high, producing the flowers in abundance on good stiff stems. This is a massive flower on a pompon plant. The first of a new race, that will be universally grown on account of the beautiful rich, luminous pink color, massive size, exquisite formation and the fact that it can be grown in pots, on small grounds, as well as for beds and borders. A splendid memorial day pot plant. On account of the size and delightful color with the good stem, it makes a wonderful variety for cutting for the house, as well as an exhibition and commercial cut flower.

See natural color reproduction on 4th cover page. Strong roots, \$5.00 each. Plants, \$2.50.

PEACOCK INTRODUCTIONS FOR 1932

ARGUS I. D. Size 5" x 2½". Height 3½ feet. Color, rich glowing crimson maroon, each petal heavily tipped snow white. A cross of Peacock and the old favorite Morocco. It is the brilliant coloring of Morocco with the advantage of the early and free blooming qualities of Peacock. The flowers are always full to the center and are borne erect on cane stiff stems. An acquisition.

We have a fine stock of roots which enables us to introduce this striking variety at a price within the reach of all. Roots, \$2.00, plants, \$1.00.

EDITH EASTBURN SIMON Ruffled. Size 10" x 4". Height 5 feet. Color, an exquisite creamy pink at center, deepening to a beautiful orchid pink on the outer petals, blending lighter toward the tips.

See half tone reproduction of photograph and description on page 4. Plants, \$5.00.

E. G. E. MARTIN F. D. Size 6" x 3". Height 4 feet. Color is a mulberry rose, with a golden bronze suffusion, reflex suffused violet. The general color effect is a glorified Mrs. Eleanor Martin. It is a cross of Elite Glory and Mrs. Eleanor Martin. It is of beautiful regular formation, held erect on rigidly stiff stems and a very free bloomer. It has the sturdy stems and heavy foliage of Elite Glory, combined with the free growing branching qualities of Mrs. Eleanor Martin. A splendid garden and cut flower variety, being especially valuable for autumn decorations. Strong plants, \$2.00.

FRANCES CHARMAN F. D. Size 10" x 5". Height 5 feet. Color, entirely distinct, bronzy salmon pink suffused and overlaid a pastel mauve pink. By disbudding the flowers are of immense size and very deep; but, even when not disbudded and at the end of the season the flowers are of unusual size and the plants just a mass of bloom. Frances Charman is probably the most profuse blooming large Dahlia in existence, and an extremely early bloomer. The flowers are always full to the center, and by allowing only four shoots to the plant and taking out the bud, the same as is done in getting long stem roses, allowing the side shoot to grow and repeating as often as is necessary, you can hold back the bloom for any particular date you want it and giving you enormous 9 and 10 inch flowers, 5 to 6 inches thick on the end of a 4 foot stem. This remarkable Dahlia is not only distinct in every way but will be a great acquisition to the exhibition table, as well as the garden and for decorations. Roots, \$5.00; plants, \$2.50.

RAY WARNER I. D. Size 9" x 4½". Height 5 feet. Color, pure luminous rose pink. Not only the most beautiful but the pinkest pink Dahlia in existence. See illustration and description page 3. Plants, \$5.00.

SPECIAL OFFER No. 9. One strong plant of each of above 1932 introductions, 5 in all, for \$12.50.

PEACOCK 1931 INTRODUCTIONS

CONGRESSMAN WOLVERTON I. D. Size 8" x 4". Height 5½ feet. Color, bright luminous salmon pink. Early, free and continuous bloomer on long stiff stems. A cross of Rodman Wanemaker and Jersey Beauty, having all the good qualities of both. It has the upright growth, full high center and early blooming qualities of Jersey Beauty, with the branching habit, freedom of bloom and the beautiful formation of the back petals of Rodman Wanemaker. It is a good root maker and considered a more beautiful cut flower than Jersey Beauty, being in color, softer than Jersey Beauty but richer than its sport Kentucky. See illustration on page 12, which shows the beautiful formation and straight rigid stem. Congressman Wolverton is not only entirely distinct but has a rugged constitution and immune from attacks of diseases or insects. It is one of those varieties that blooms everywhere and is a great acquisition to the exhibition table, the garden and the select list of commercial cut flowers. Field grown roots, \$5.00 each; plants, \$2.50 each.

ESTHER DEAN BROWNING S. C. Size 8" x 3". Color, clear shrimp pink, tinting lighter toward center. This is the finest and best of all the light pink semi-cactus varieties for garden and cut flowers. Flowers can be grown much larger, but they lose their chief charm. Specimen plants can be grown with 25 to 100 perfectly formed, exquisitely colored flowers. It is our best seller in the light pink as a commercial cut flower, as they are produced on straight, rigidly stiff stems and are always full to the center and remarkable keepers. The plant is 5 feet high, insect and disease resistant. Field-grown roots, \$2.00; plants, \$1.00.

F. A. VENDRELL I. D. Size 8" x 3". Height 4½ feet. Color, a wonderful combination of yellow, orange and red shades, a typical spanish color. See half-tone reproduction of photograph on page 6. Plants, \$5.00; roots, \$10.00.

For a balanced Dahlia food we recommend "Loma" 5-10-4. \$6.00 per 100 lbs.

RAY WARNER I. D. Size 9" x 4½". Height 5 feet. Color, the most beautiful clear luminous rose pink. In Ray Warner we have at last produced the pinkest pink in flowers. For 50 years A. D. Livonia had been the standard pink. This was followed the last 25 years by Delice. We have finally produced the perfect pink that has been sought for 75 years. Ray Warner is a cross of the celebrated Jersey Beauty and Little Jewel. The plant shows the Jersey Beauty foliage and growth, but with a low branching habit, inherited from Little Jewel. It is an exceedingly rapid grower, consequently a very early, profuse and continuous bloomer. The tens of thousands of visitors at our farms united in calling this the most beautiful of all pink Dahlias. Two inch pot plants set August 8th, bloomed in September and continued to bloom with perfectly full centers until November.

We exhibited Ray Warner blooms at the Philadelphia Florists Club meeting, November 3rd, and we quote the news item written by Robert Kift, secretary of the Club, in the Florists exchange issue of November 21st:—"The new Dahlia, Ray Warner, a large decorative of an exquisite shade of pink exhibited by L. K. Peacock, at the November meeting of the Florists Club, attracted great attention and is likely to become a standard cut flower in the same class as Jersey's Beauty, which is one of its parents".

The following is the report of the Novelty Committee:—"L. K. Peacock, Dahlialand, N. J., exhibited a splendid vase of his new pink Dahlia Ray Warner, a splendid true pink of fine decorative form that should supersede that very fine Dahlia, Jersey Beauty, which is one of its parents. Altogether a splendid Dahlia." Signed, John W. Prince, Chairman.

Secretary Kift, one of the ablest florists and decorators of the country, commenting on this report said:—"I think he was a little strong in saying it should supersede Jersey Beauty. I asked Mr. Ekas of Baltimore who was at the club that night how it compared with Jersey Beauty, and he said it was very fine and there was a place for both of them.

Ray Warner was planted the last of April in our early trials of 150 varieties. It was the first to bloom on June 12th, and continued in full bloom until killed down by frost in November, when it was still a mass of bloom with full high centers on 3 foot stems.

We had intended introducing Ray Warner in 1933, but so many of our visitors and friends wished it at once, that we started booking orders for plants right in the field last Fall. There is going to be an immense demand for plants and we would advise all to place their order early. We have made a reasonable price and we guarantee every plant to reach destination safely, grow and prove entirely satisfactory. Strong plant, \$5.00 each.

"KATHRYN CHARMAN" is the most spectacular and effective autumn shade exhibition Dahlia

EDITH EASTBURN SIMON Ruffled. Size 10" x 4". Height 5 feet. Color, an exquisite creamy pink at center, deepening to a beautiful orchid pink on the outer petals, blending lighter toward the tips.

The half-tone reproduction above shows the exquisite formation. Each petal is beautifully ruffled as well as twisted and whorled. It is an early and free bloomer producing the flowers on long slender stems, held well above the foliage. The plant is an early and free bloomer for so large a flower. It is the most outstanding and sensational Dahlia of 1932.

An ex-president of the American Dahlia Society who visited our place wrote:—"Frankly, I think Edith Eastburn Simon was the finest new thing I saw last year. Sorry you are not to let out any roots, but I think you are very wise, as I recollect you did not have a very large stock of them. We shall certainly list them in our catalogue."

This is only one of the thousands of similar comments made about this new Dahlia. The color is as daintily beautiful as the form, so plainly depicted above. Strong plants, \$5.00 each.

Peacock 1931 Introductions—Continued

FRAZIER F. D. Size 9" x 4". Height 4 feet. Color, rich glowing oriental red, tipped yellow with yellow at base of petals. See illustration and description page 5. Field-grown roots, \$3.00 each; plants, \$1.50.

PETER PAN I. D. Size 8" x 4". Height 2½ feet. Color, rich luminous pink. See description page 2 and natural color reproduction on 4th cover page. Strong plants, \$2.50. A few roots until exhausted, \$5.00.

SPECIAL OFFER No. 8. One strong plant of each of the 1931 introductions, five in all, by mail, postpaid, for \$17.50.

"PRESIDENT HOOVER" is an early, free and continuous bloomer on long stems

FRAZIER F. D. Size 8 to 9 inches across. 3 to 4 inches deep. Height 4 feet. Color, rich glowing oriental red, tipped yellow, with yellow at base of petals. The plant is of dwarf branching habit with a rugged constitution and thick leathery leaves. An early and continuous bloomer on rigidly stiff stems. Flowers are held above the foliage, facing to upright. It blooms under all conditions, never being affected by insects or disease. It is the best keeper we know, and the best cut flower. Even during the extreme heat we never had enough blooms of Frazier to fill our orders. The illustration above tells the whole story. This plant was pinched out twice, which gave a large number of branches. The terminal bud on these branches was retained and 2 to 3 pairs of laterals removed, with the result shown above. When the lower branches developed they were handled the same way, leaving the terminal bud and removing the growths from the base of 2 pairs of leaves as shown in the photograph. This gives a succession of bloom until killed down by frost. Field-grown roots, \$3.00 each; plants, \$1.50.

CACTUS DAHLIAS

This collection embraces the World's Best Cactus Dahlias, including the incurved type. It includes all types and sizes from those dainty highly colored garden varieties, that bloom so profusely, to the giant flowered. Our stock is not only true to name but true to type. The following descriptions include the approximate size of the flowers and height of plants.

AMERICAN TRIUMPH. Size 8" x 3½". Ht. 6 ft.
Color, bright oriental red. Winner of the American
Home sweepstake at New York. A strong vigorous

grower and free bloomer on long stiff stems. A real Roots
acquisition to the true cactus type for exhibition, cutting
and the garden. Strong plants, \$1.25 each..... \$2.50

"RODMAN WANAMAKER," strong plants, grown from selected stock, \$1.00. Roots, \$1.50.

F. A. VENDRELL I. D. Size 8" x 3". Height 4½ feet. Color is a wonderful combination of yellow, orange and red shades, being typical Spanish color, in fact, a block was described by a Spanish visitor as a "Bit of Spain." It is a very early and profuse bloomer, always full to the center, even late in the season. One of the most profuse bloomers we have and has attracted more attention than any of our new Dahlias. It is a seedling of Rodman Wanamaker with the same rugged health and free branching habit, but an early bloomer on rigidly stiff stems. This is the variety that we have tested fully the past 3 years and has been known as the double Rodman Wanamaker. It is always in bloom. The above illustration reproduced from a photograph shows the very double, full high center and large size of the flower on the rigidly stiff stem. It also shows the Rodman Wanamaker foliage on the stem.

Thousands of our visitors consider this the best Dahlia we have ever introduced. There were 15 flowers open on the plant from which the above specimen was cut in early October, 1930. Strong roots, \$10.00; plants, \$5.00.

Address Dahlland, N. J., is exclusive. Only Dahlland P. O. in the world; means perfect service.

ROBERT E. LEE S. C. Size 10" x 5". Height 5 feet. Color, bright luminous cardinal red; reflex, lighter. Not only a 1929 Roll of Honor Dahlia, but in the list that made good in 1930. It has never been beaten on the exhibition table and stands in a class by itself as the best red semi-cactus for exhibition, garden and cut flowers during the entire season. It is not only a brilliant glowing red, but it does not burn or fade. The photograph above shows the shape and how it is carried on the cane stiff stem. The plant is a strong vigorous grower, always healthy and immune to insects. In our all season trials it was the 5th to bloom in a hundred and was easily the favorite red. The plants averaged a dozen blooms at all times from July until late October. The flowers were held from facing to upright on the rigidly straight stiff stems, and every flower was full to the center to the last. It was named by an enthusiastic Southerner as the first Dahlia he had seen that he considered was appropriate and worthy of the name. We have had wonderful reports from Robert E. Lee from all over the country. At Camden 5 blooms that were cut from 2 plants won over all reds. We especially recommend Robert E. Lee for the South and the Pacific Coast where it always comes full to the center. Robert E. Lee is the easiest to grow and handle. For exhibition blooms allow the plant to grow naturally until buds are formed, take out the terminal and next 2 buds, when it branches naturally. Leave as many branches as wanted, disbud, leaving the terminal bud only. For commercial cut flowers or for garden, take out center when 3 or 4 pairs of leaves have formed and allow to grow naturally, then remove terminal buds, disbud the branches leaving the terminal buds. This will give you the very finest commercial red semi-cactus blooms. Field-grown roots, \$5.00 each; plants, \$2.50 each.

CACTUS DAHLIAS—Continued

FRAU O. BRACHT. Size 8" x 4". Ht. 5 ft. Color, clear primrose yellow. The flowers are beautifully formed with full high centers and borne erect on long slender stiff stems. It is a free bloomer and one of the best for exhibition, garden and cutting. Plants, \$1.50. \$3.00	Roots	GAILLARD. Size 4" x 2½". Ht. 4 ft. Color, rich vermilion. An early and profuse bloomer, an exceptionally fine garden variety. \$0.25	Roots
F. W. FELLOWS. Size 8" x 3½". Ht. 5½ ft. Flowers composed of numerous long narrow incurved petals of a lively orange scarlet. This is one of the finest Autumn shade varieties. Should be in every collection.75		GOLDEN SONNE. Size 6" x 3". Ht. 5 ft. Color, clear yellow, shading to rich golden apricot at the center. Beautifully formed and free bloomer on long, slender, stiff stems. Plants, 75c. 1.50	

Free Dahlias! See page 34 for list of Dahlias you can select free, and how.

KATHERINE KELLY. Irregular Dec. Size 10" x 4". Height 4 feet. Color, rich glistening brownish red, shaded maroon. The reflex is lighter, and sets off the flower most effectively. The formation, as shown above, is entirely distinct and charming. This flower is also most unique, in that it is so different from what it appears.

Instead of being flimsy, the petals are very thick, heavy, and of such great substance that it not only keeps well, but stands up well under long shipments. Splendid and effective for exhibition, garden, and if the terminal buds are removed twice, a profuse cut flower variety.

Do not disbud this Dahlia to the crown bud only. Special instructions to grow Katherine Kelly will be sent with each order. We have had 15—8, 9 and 10 inch flowers on 2 feet stems, on a single plant. Strong plants, \$1.50 each; roots, \$3.00.

KATHERINE KELLY BEST RED. Katherine Kelly was named at the request of Mr. John Kelly of Bryn Mawr, Pa. Following our policy of sending complimentary plants, we were more than pleased at the reports. Not only was this outstanding variety the most admired Dahlia in Mr. Kelly's garden, but at the Ardmore Show won First as the Best Red.

HOW TO GROW. Katherine Kelly is an entirely new type. It should never be pinched back as it produces an enormous fleshy stalk, but dwarf. Allow it to grow naturally and take out the terminal bud. The branches grow from 2 to 3 feet long. Leave the terminal bud on the branches and disbud all the way down to the main stem. Result, 10 inch flowers on long stems with lots of foliage and the photograph shows what a beauty.

GOLDEN WEST. Size 6" x 3". Ht. 4½ ft. This is still one of the most pleasing varieties. Rich golden yellow, with a richer suffusion at the center. Splendid for cutting.....	Roots \$0.35
GOLDSCHMIDT'S TOCHTERLEIN. Size 6" x 4". Ht. 4½ ft. An exquisitely lovely salmon rose-color, and distinct formation. An early and profuse bloomer. One of the best for garden and cutting.....	.35
IAN. Size 8" x 4". Ht. 5 ft. Color, clear yellow, shading to pink on the outer petals, sometimes tipped white. Profuse bloomer on good stems.....	.75

JOHN RIDING. Size 8" x 3". Ht. 5 ft. Deep, rich crimson, with long narrow petals and on rigid stems....	Roots \$0.50
KROON JEWEL. Size 6" x 3". Ht. 5 ft. Color, rich golden bronze. An early and free bloomer, with the beautifully formed flowers held well above the foliage on long slender stiff stems. One of the best of its color, and especially fine for garden and cutting. Plants, 75c...	1.50
LAWINE. Size 5" x 3". Ht. 4½ ft. White, lightly suffused pink. A strong, vigorous grower, early and profuse bloomer. One of the best for commercial cut flowers and for the garden.....	.25

To find any variety in our catalogue, see handy index pages 32 and 33.

MARIE Dec. 1930. Size 7" x 3". Height 3½ feet. Color, luminous delicate pink. It has a freshness and brilliancy lacking in Jersey Beauty. It is an early and free bloomer, with full center to the last. The illustration shown above was taken by the natural color photography, October 27, 1928. The flowers are larger than Jersey Beauty, and it is a much more profuse bloomer. The plants are sturdy, of branching habit, and ideal for the garden. On account of the wonderful color, stiff stems and keeping qualities, it is especially valuable for all purposes. Roots, \$1.50 each; plants, 75c.

SPECIAL OFFER No. 1. One strong root each President Hoover, Eliza London Shepard, N. J. S. C. C., and Peter Pan, shown in natural colors on first, second, third and fourth cover pages, (4 roots), for \$15.00.

SPECIAL OFFER No. 2. One strong root each of Marie, Ty Cobb, Mae Grete and Sunset Glow, as shown in natural colors on pages 9, 10, 27 and 28, (4 roots), for \$4.50.

SPECIAL OFFER No. 3. One strong root of the 8 Dahlias we represent in natural colors in offers Nos. 1 and 2, for \$18.00.

SPECIAL OFFER No. 4. One strong root each of Ty Cobb and N. J. S. C. C., for \$4.50.

SPECIAL OFFER No. 5. One strong plant each of President Hoover, Eliza London Shepard, N. J. S. C. C., and Peter Pan, for \$7.50.

TY COBB

TY COBB Informal Decorative. The name tells the story. This dahlia was selected by Ty Cobb because he liked it. Every one of our visitors, the past season, stopped to admire Ty Cobb. Sometimes it was the wonderful plant, or the beautiful form, or the large size, but always it was "what a wonderful color, and such a good bloomer." And that is just it. It has "it" in its every characteristic. The plant is a strong vigorous grower, with dark green glossy leaves; an early, free and continuous bloomer. The flowers are large, 8 to 10 inches in diameter and 5 to 6 inches deep. The form, as shown, is the graceful hybrid type, between the hybrid cactus and decorative, with back petals reflexing to the stem. Height, 3½ feet.

But, it is the color that is its chief charm. Brilliant glowing garnet, shading deeper, with a most lustrous sheen. The reflex is a luminous crimson purple.

Ty Cobb has been such a wonderful seller that we have been unable to work up a stock of roots. It is going to be in great demand for years to come. It just grows and blooms freely. Hundreds of letters tell us of the wonderful success with Ty Cobb. Even where the weather was most unfavorable the past season and some plants made poor roots, there was no complaint of Ty Cobb. In our 1930 catalogue we offered "strong plants, that will bloom and make roots, ready April 15th until June 15th." Everyone of the hundreds of letters told of the wonderful color, size and freedom of bloom, and only a few failed to make roots that would keep over. This was because of the unexpected demand, plants were sent out as late as July.

This year we have a fine stock of roots, but with the great demand, we know the supply will become exhausted. As long as they last, strong field grown roots, at \$3.00 each; strong plants, \$1.50 each.

A. LINCOLN S. C. Size 9" x 5". Height 5 feet. Color, bright spectrum red, reflex, rose red. The photograph shows the perfect form, large size, straight stiff stem. The plant is a strong vigorous grower of branching habit, producing the flowers facing on long, slender, perfectly straight stiff stems. This is the ideal red for all purposes that will fill a long felt want. One of the earliest to bloom, and always in bloom. Leave the terminal bud and disbud down four pairs of leaves. Handle the succeeding branches the same, and it is in full bloom until frost. Field-grown roots, \$2.50; strong plants, \$1.25.

MRS. EDNA SPENCER. Size 7" x 3½". Ht. 5 ft. An exceptionally fine variety for all purposes, large size, fine form and above all a free bloomer, on long erect stems. Color silvery lilac, shading to bright orchid pink.....	.35
MRS. LEO NIESSEN. Size 6" x 3". Ht. 4½ ft. Without question the very best cactus dahlia of its type and color. It is not only very bright and effective in early and midseason, being produced profusely on stiff stems, but late in the season, when so many varieties come open centered, it is always full and perfect. The flowers are splendid form and texture, hence splendid keepers, both on the plant and when cut. Color, a beautiful shade of scarlet red, blending to peach red at center of flower, with bright yellow at base of petal and at tips; a reflex sulphur yellow veined and suffused pale peach red. A splendid bright rich Autumn combination, at once most pleasing and effective.....	Roots \$.35
MRS. ROBERT H. GROFF. Size 6" x 3". Ht. 4½ ft. This, in the opinion of our visitors, is the best pure white cactus. It is an extremely profuse bloomer. The petals are long, narrow and beautifully curled. The buds are long and pointed; the flowers perfect and full to the center. An ideal variety for garden and cutting.....	.50

SEMI-CACTUS DAHLIAS

This class now separated from the narrow petaled cactus varieties, are intermediate between the cactus and informal decorative. The flowers are fully double with the margin, and the majority of the petals revolute for less than one half of their length. In other words the petals are broad at their base but revolute or recurved at the tips, giving them a pointed appearance.

AUDREY DAVENPORT. Size 8" x 3". Ht. 5 ft. A clear milk white that will eventually find its way into every collection. The flowers are splendidly formed and held facing on stiff, slender, erect stems. An early and continuous bloomer.....	.50
CIGARETTE. Size 7" x 4". Ht. 6 ft. Very fine scarlet-tipped white; fine flowers erect on cane stiff stems.....	.50
DAINTY MAID. Size 6" x 4". Ht. 5 ft. Color, pale yellow, tinting to cream; splendid form on upright stems.....	.75
DR. HELMUTH SPAT. Size 6" x 2½". Ht. 5 ft. Color, luminous lilac, shaded deeper. Splendid form. The plants are strong and vigorous, producing the flowers profusely and carrying them erect on long straight stiff stems. This is a great improvement over Attraction and will take the place of that old favorite. Plants, 75c....	1.25
DR. I. N. BEEGLE. Size 7" x 3". Ht. 5 ft. Decidedly the best commercial white Hybrid Cactus. The plant is a strong vigorous grower, with dark green glossy foliage. The beautiful snow white flowers are held gracefully on good stems, presenting the flowers facing. It is an early free bloomer.....	.75
EDNA FERBER. Size 9" x 4". Ht. 5 ft. Color, glistening coral shading to old gold; fine form on long stems. Plants, 75c.....	1.50
EMMA MARIE. Size 7" x 3". Ht. 5½ ft. Deep rose, tinting to cream at center. Flowers with full high centers, and borne erect on cane stiff stems. An early and free bloomer.....	.75

J. H. JACKSON. Size 6" x 3". Ht. 4½ ft. Still one of the best and most reliable of the so-called black Dahlias; rich velvety maroon, shaded black.....	.25
JOPPA. Size 6" x 3". Ht. 5 ft. Gold and apricot, suffused salmon rose.....	.50
KARL BONAWITZ. Size 8" x 5". Ht. 6 ft. Chosen by and named for the noted organist, who was playing in Atlantic City during the Flower and Garden Pageant. The entire makeup of this dahlia will appeal to the artistic. It has sufficient size to assert itself while the form, color, and keeping qualities make it graceful, as well as useful. It comes the nearest to developing a perfect bush without topping or disbudding of any dahlia we know, just naturally branches and produces perfect and uniform blooms on long erect stems. It responds, however, to disbudding, and will give you stems up to 4 feet in length. Color is a brilliant velvety carmine. Plants, \$3.75.....	7.50
LAURA ENTREKIN. Size 8" x 4". The color is deep, lively rose pink, reflex pure rose pink. A strong vigorous grower, free bloomer, and is borne on long stiff stems. It is the outstanding deep pink of its class.....	.50
LINCOLN G. DICKEY. Size 9½" x 5". Ht. 3½ ft. Here is about the most prolific producer of fine blooms it has ever been our good fortune to grow. Primrose yellow with a decided rose suffusion. Disbud it and the blooms will be immense, grow it naturally and they will be of good size in great quantities. One of the earliest to bloom and among the last to finish. The growing habits are ideal, making this dahlia really great though not spectacular. Lincoln G. Dickey will be grown when many more spectacular dahlias have passed on. Won first in Atlantic City in Semi-cactus seedling class and has been recommended for certificate at the New Jersey Dahlia Society Trial Grounds 1930. Plants, \$2.50....	5.00
MAE GREFE. Size 7" x 3". See natural color reproduction and description page 27.....	.75

KING MIDAS I. D. Size 12" x 5". Height 4 feet. Color, pure golden yellow. Form perfect; stems, long stiff and straight, holding up the giant flowers. First prize winner everywhere last year. Rated as one of the six greatest of all exhibition Dahlias, and the greatest of all golden yellows.

The plant is a strong sturdy grower, absolutely healthy, and an early free and continuous bloomer. The flowers are so full that they last on the plant for weeks. Just pull out the back petals from time to time and that wonderful center does the rest. Any of the branches will give 12 inch flowers if fed. For cutting, top out twice, otherwise, the flowers are too large. The illustration shown above is reproduced from a photograph taken October 19th. Note the full high center, at a time when most of the big fellows had open centers. Derrill W. Hart says:—"King Midas (Peacock) Decorative. Last year we prophesied success for this good yellow. It has gone far beyond our prophecy, and in our estimation it is one of the six greatest exhibition Dahlias of Eastern origin. King Midas is a one tone golden yellow flower of great depth, and produces six and seven perfect blooms at one time." Roots, \$3.00 each; plants, \$1.50.

Letters from thousands of customers tell of wonderful success with PEACOCK dahlias, and PEACOCK fair dealing.

ROBERT H. GROFF I. D. Size 9" x 5". One of the most sensational seedlings we have ever raised. It is a seedling of "Attraction," but decorative in form. A very sturdy grower and produces the giant flowers on long graceful, rigid stems. Full regular decorative form and as it is much larger than Attraction it is more popular for exhibition and cutting than that variety. The illustration above shows its resemblance to Attraction in the back petals. It also shows the full high center. The flower is very deep through. The color is softer and lighter than Attraction. The plant is a strong, vigorous grower and free bloomer. The flowers are always full to the center. Roots, \$1.50; plants, \$0.75.

Visit Dahlland and you will see the superiority of Peacock dahlias. Healthy, strong, beautiful and blooming profusely.

A. H. S. '23 F. D. Size 8" x 4". Height 4½ feet. Color, clear canary yellow, without tint or blemish. It is a strong vigorous branching grower and the earliest to bloom. For exhibition it must be disbudded. As the photograph shows, it is perfect form with beautiful full high center. It is the best yellow for a garden plant and by topping out and disbudding it is the best clear yellow commercial cut flower. Every flower is perfect. Field-grown roots, \$1.50; strong plants, \$0.75.

SANTA FE. Size 10" x 4". A gigantic flower that is easily the largest, handsomest and most outstanding yellow Semi-Cactus. This was raised for, and named by the most enthusiastic amateur Dahlia grower in Santa Fe. Yellow is the City color, and of course the Cactus, the universal flower. The flower is of enormous size, has great depth of flower and a full high center. It has similar foliage and habit of growth as its parent, Rodman Wanemaker. In formation, it is somewhat like Mari-rosa, but is larger, deeper and more massive in every way. The color is a clear, soft light yellow. Plants, \$1.50	Roots \$3.00

MARY DORR Cactus. Size 7" x 3½". One of the most beautiful of all cactus dahlias and the best of the deep pink and white type. A great improvement over Margaret Bouchon inasmuch as it is not only larger and better formed, brighter colored flowers, but a much better grower and more profuse bloomer with better stems. The color is bright tyrian pink, blending to white at center of flowers and tips of petals; reflex amaranth pink. The form is perfect, with long, twisted somewhat incurved petals. The flowers are produced freely on long slender, but stiff stems. The plant is a strong, vigorous grower. As a commercial cut flower, it was the best of this type during the past four years. A splendid garden and exhibition variety. 4 ft. Roots, \$0.50; 3 for \$1.30; 6 for \$2.50; 12 for \$4.50.

28 of our 85 Acres of Dahlias

Showing our 2 and 3/4 acres of trials embracing 661 varieties next to the walk and extending to the woods. Note the healthy growth and freedom of the plants. For years we have grown dahlias and since 1895 have been recognized, by those who know, as not only the largest growers in the world, but growers of the World's Best, we must secure the best from the world's growers, and use them to test out our own productions before introducing them. We grow for other growers as well as our own. In this way we keep down the number of varieties and ever improve the quality.

DWIGHT W. MORROW. Named by Fred E. Dixon. **Roots**

Size 12" x 6". Ht. 5 ft. A gigantic red dahlia that is admired by everyone. Not only does the size and form of bloom make all who see it ardent admirers, but its richness of color make it one of the most spectacular dahlias. This dahlia likes heavy soil and will stand quite rich culture. It should be topped once or twice and disbudded for terminal buds. It is by far the most outstanding red dahlia. At the Atlantic City Show it won first in the informal decorative seedling class and we prophesy it will be a consistent winner in the informal decorative and red classes the coming season. The above is the introducers description. We were so impressed by the appearance of this beautiful red decorative that we are offering it as a suitable decorative companion for our semi-cactus, Robert E. Lee. Plants, \$5.00.....\$10.00

E. B. ROBERTS. Size 7" x 4". Ht. 4½ ft. Old rose, overlaid apricot. A good keeper and free bloomer on good stems. Splendid exhibition and cut flower......50

EBENEZER. Size 6" x 3". Ht. 5 ft. Bright velvety maroon, lighter reflex. Long twisted petals......35

EDYTH HOLLOWAY. Size 10" x 5". Ht. 4 ft. Color, deep scarlet, shaded red, tipped yellow; reflex, veined lighter. A seedling of Zeus, but a much more robust grower. The flowers have heavy texture and are held on long stiff stems. It is an early bloomer, splendid grower, and continues to produce the giant flowers until frost. One of the most valuable for the garden, as well as exhibition and cutting. Plants, \$1.50.....3.00

EL GRANADA. Size 8" x 3". Ht. 5 ft. Yellow, suffused scarlet. Beautiful form, with long twisted petals. Free bloomer on good stems......75

ELIZABETH B. FITLER. Size 6" x 2½". Ht. 5 ft. This is undoubtedly the most beautiful royal purple, as well as one of the earliest and most profuse bloomers. The form is informal decorative, bordering toward semi-cactus. The best of its type and color for garden and cutting.....1.00

RODMAN WANAMAKER. Considering all points, we believe this is the greatest autumn colored dahlia in existence. The color is entirely distinct from any other variety. The buds are pale lemon yellow, as is each petal as it first expands, but it quickly develops into a golden salmon pink, and finally into a beautiful, bright shade of ochraceous salmon, with a reflex of spinel pink. No color reproduction can do justice to the wonderful coloring. The flowers are of splendid texture with a luminous sheen. The plant is a most luxuriant grower with an abundance of beautiful light green foliage. The stems are very long and hold the giant flowers erect facing. RODMAN WANAMAKER has been grown in trial with all our dahlias and is a wonderful grower of largest size and longest stems. For exhibition cut flowers or for the garden, it is in a class by itself on account of its large size, beautiful coloring, exquisite form, free blooming and long stems. Plants, \$1.00.....	1.50
RUTH CAVALIER. Size 9" x 4". Ht. 3½ ft. Color, deep rose pink, tinting lighter toward the creamy pink center. A seedling of Rodman Wanamaker crossed with Millionaire. Entirely distinct. The huge blooms are held erect on long, slender, rigidly stiff foot stalks. The plant is of dwarf branching habit, and is a free bloomer. One of the best for exhibition, garden and cutting. Plants, \$1.25.....	2.50

- IDA FRIES.** Very bright and attractive. Brilliant crimson, shaded plum, tipped lighter, making it very effective. The petals are beautifully irregular.25
- MME. J. COISSARD.** Size 7" x 2". Ht. 3½ ft. Flowers large and distinctly striking; inner half of petal white, outer half vivid carmine. An outstanding beauty.50
- MRS. WM. KERR.** Size 5" x 2". Ht. 6 ft. Color, white suffused pink with deep cerise blotch. Very effective.25
- PINK PERFECTION.** Size 6" x 3". Ht. 4 ft. Luminous silvery pink, of splendid form on long stiff stems. The first flowers come fully double.35
- SNOWDRIFT WANAMAKER.** Size 9" x 3". Ht. 5 ft. Color, snow white. A strong vigorous grower and profuse bloomer on rigid cane stiff stems. A cross of Snowdrift and Rodman Wanamaker. Similar to Snowdrift but a much stronger grower of branching habit and long stems. Plants, \$1.00. 2.00
- SPECIAL OFFER No. 15.** One each of above, 12 roots (value \$5.55), for \$3.50.

BALL DAHLIAS

- APOLLYON.** Size 4" x 3". Ht. 4 ft. Color, vivid vermilion red; a profuse bloomer.25
- CHAS. LANIER.** Size 5" x 4". Ht. 4½ ft. Large, rich golden buff, edged darker.35
- CRIMSON GLOBE.** Size 4" x 3". Ht. 5 ft. Bright crimson. A profuse bloomer.25
- DOUGLAS DAVIES.** Size 5" x 4". Ht. 5½ ft. The form of the flowers is very distinctive, while the coloring is rich and effective, rich carmine shaded garnet. The round ball-formed blooms are carried well above the foliage on long stiff stems.50
- DOROTHY PEACOCK.** The world's best pink ball.35
- DREER'S WHITE.** Size 5" x 3½". Ht. 3½ ft. Pure white, quilled petals. A dwarf grower with long drooping stems. A good bloomer.25
- ELECTRA.** Size 4½" x 3". Ht. 5 ft. Full ball type, color a soft magenta rose; very fine.25

Rufus Amaranth Othello Babette Larry

- ETHEL MAULE.** Size 5" x 4". Ht. 3 ft. A magnificent pure white, of fine form. Plant dwarf; a free bloomer. \$0.50
- FLORAL PARK JEWEL.** 4" x 3". Ht. 4 ft. Color, white suffused pink, penciled and striped rich glowing red. Sometimes the flowers are nearly white, occasionally solid red with faint markings, but every flower is more or less variegated but entirely distinct from the other.25
- GOLD MEDAL.** Size 4½" x 3". Ht. 4 ft. Deep golden yellow, tipped and suffused oriental red; splendid form; very striking and effective.35
- JAYSEDEE.** Size 4½" x 3". Ht. 4 ft. Violet pink, penciled and striped deep red. A strong grower; free and continuous bloomer. 1.00
- JEAN CHARMET.** Size 5" x 3". Ht. 5 ft. Color, coppery bronze, shaded darker. Free bloomer on long stems.25
- JEAN KERR.** Size 4" x 3". Ht. 3 ft. Pure white of fine form. A profuse bloomer on stiff stems.35
- JERSEY BEACON BALL.** Size 5½" x 4½". Ht. 3½ ft. Color, early in the season, geranium scarlet with buff reflex, but as the season advances, softens into a scarlet orange and finally a brilliant orange. It is one of our Jersey Beacon crosses, to get just what we did—a hybrid ball with a refined Jersey Beacon Color. It was one of the most popular shades as a cut flower last Fall, and one of the best sellers. It is of splendid form, the outer petals reflex to the stem, forming a ball. It has a full high center, with the unopened petals showing the buff reflex. A decidedly novel and valuable acquisition. The plant is a strong vigorous grower, of branching habit and an early, profuse and continuous bloomer on splendid stems. Exhibition, garden and cutting. 1.00
- LUCY FAWCETT.** Size 4½" x 3". Ht. 4½ ft. Straw yellow, penciled pink and crimson; splendid form.25
- MAUD ADAMS.** Size 4" x 3½". Ht. 4 ft. One of the most delicately lovely of this class, being a clear shell pink. It is beautifully formed and an early and free bloomer, on fine stiff stems.25
- MERLIN.** Size 4" x 3". Ht. 3 ft. A splendid bright scarlet red, beautiful form and profuse bloomer.35

DAHLIA CULTURE 1930. The illustrations showing the proper way to disbud, as described makes success assured.

MAE GREFE

MAE GREFE S. C. As shown in color above. This is a lovely and most pleasing variety. In color and form it is all that can be desired, being an upright grower, producing the flowers well above the foliage on splendid stems. It is especially valuable for summer blooming, when so many varieties fail; a splendid keeper as a cut flower. Strong field grown roots, 75c. each; 3 for \$2.00; 6 for \$3.75.

SPECIAL OFFER No. 1. One strong root each President Hoover, Eliza London Shepard, N. J. S. C. C., and Peter Pan, shown in natural colors on first, second, third and fourth cover pages, (4 roots), for \$15.00.

SPECIAL OFFER No. 2. One strong root each of Marie, Ty Cobb, Mae Grefe and Sunset Glow, as shown in natural colors on pages 9, 10, 27 and 28, (4 roots), for \$4.50.

SPECIAL OFFER No. 3. One strong root of the 8 Dahlias we represent in natural colors in offers Nos. 1 and 2, for \$18.00.

SPECIAL OFFER No. 4. One strong root each of Ty Cobb and N. J. S. C. C., for \$4.50.

SPECIAL OFFER No. 5. One strong plant each of President Hoover, Eliza London Shepard, N. J. S. C. C., and Peter Pan, for \$7.50.

SUNSET GLOW S. C. Size 6" x 3". Height, 4½ ft. The above natural color reproduction tells the story. It is an early and extremely profuse bloomer. The flowers are always produced on rigidly stiff stems. This variety must be disbudded to keep up the size throughout the season. It is a very quick grower, as well as a profuse bloomer, making it the very best of its color for garden and cutting.

We have a splendid stock of this variety which enables us to offer it at the price within the reach of all. Strong field grown roots, 25c. each; 3 for 60c.; 6 for \$1.10; \$2.00 per dozen.

SPECIAL OFFER No. 6. SPECIAL GARDEN COLLECTION—We are offering a splendid collection for garden and cutting, giving a special value and a wonderful range of color.

We offer one strong root of each of the following:—Sunset Glow, shown above in natural color. Agnew Bedder, vivid glowing red, blooms in six weeks. Delice, the standard favorite pink for twenty-five years. Jack Rose, the best cutting and keeping pure crimson yet. Libelle, the brilliant aster purple. Mrs. Edna Spencer, the loveliest pale orchid colored incurved cactus. Glory of Monmouth, that sturdy free blooming glorious pastel pink, produced so profusely on rigidly stiff stems. Jersey Beauty, that great favorite that is universally grown. Mrs. I. de ver Warner, the sturdy growing glorious mauve pink. Mrs. J. Harrison Dick, the most profuse yellow with salmon pink suffusion. Pride of California, a deep red, worthy of the name, and last but not least, that long slender stiff stemmed, early and profuse blooming, brilliant red semi-cactus, A. Lincoln; 12 roots in all, value \$6.55, by mail postpaid, for \$3.50.

Pompon or Lilliputian Dahlias

This class is a miniature form of the show or ball Dahlias, having the same round, ball-like form, but much smaller in size. The plants are also smaller, of branching habit, producing the flowers in endless profusion. As they can be cut in sprays they are valuable for bouquets and for small grounds. Some varieties have miniature roots also. We make a specialty of Pompons.

WORLD'S BEST DAHLIAS

What are World's Best Dahlias? Who is competent to name the World's Best Dahlias? We can think of no better answer than to copy the words of a real Dahlia authority, under the heading, Select List of Varieties.

"In a little work of this kind any arbitrary list of varieties is out of place. This is because different varieties do better in different places, on different soils, in different latitudes and in different climates; and, then again personal opinion, likes and dislikes vary so that no one could make up a list to fully satisfy another. No person has sufficient knowledge of all the varieties grown in a country as large and diversified as ours. Again new varieties are being created and introduced in such quantities continually, that a complete list today would be out of date tomorrow."

DAHLIALAND

Here we gather the best Dahlias we can find from all quarters with which to test out our own creations before introducing them. Here are the largest Dahlia trial and experimental grounds in the world. Acres are devoted to these trials and experiments, where every variety is handled just alike, in order to get the absolute relative values of all.

GROWING PRIZE DAHLIAS

Some years ago a Pennsylvania customer was impressed by the sturdy healthy plants in our trial grounds. In reply to his inquiry "Why do I have more than half stunts in my garden, when the previous year I dug and saved only roots from strong healthy plants." He arranged for an appointment with our expert for the next morning, and told him his troubles, but was told he could not have exhibition quality blooms the entire season and healthy roots for planting the following year from the same plants.

As he wanted the flowers we suggested he get fresh plants and roots each year. This customer is today one of the most enthusiastic Dahlia growers and a consistent prize winner in the keenest competition.

We quote from a letter of September 16, 1931:—"Not withstanding my foreboding predictions we made a pretty good showing at Swarthmore, capturing four blue ribbons. I am sending all the exhibition cards herewith, thinking they will be of interest to you.

If the show had been a little later we might have had still better flowers, as several varieties are not yet fully opened."

Types of Pompon Dahlias

12 Awards out of 15 Entries

The result was 4 Firsts, 4 Seconds, 2 Thirds and 2 Honorable Mention as follows:—First Prizes, Congressman Wolverton, Eliza London Shepard (vase of 11 blooms, finest in show), Kathleen Norris, Rodman Wanamaker. Second Prizes, Elkrige, F. A. Vendrell, Ray Warner, Sanhican's Queen. Third Prizes, Frances Charman, Jane Cowl. Honorable Mention, Bertha McLeod, Color Sergeant.

This is a most wonderful record, 12 awards out of 15 entries. The report also mentions an exhibit of 3 blooms of Edith Eastburn Simon:—"These 3 were magnificent blooms but had been injured by beetles. I marked them therefore, 'not competing.' The chairman of the Dahlia section told me that the judges were delighted with them and would otherwise probably have awarded them a prize."

Healthy Stock for Prize Blooms

Get good healthy stock, grow them the limit, win prizes and forget the roots. In this way you have a wonderful Dahlia garden, the pleasure of winning at the exhibitions, and have wonderful long stem flowers for your house until killed down by frost. These roots would be a percentage of failures the following season, therefore to insure a perfect garden it is necessary to get fresh roots and plants, grown without forcing. To those who do not wish to purchase new stock each year, a separate planting should be made and the plants allowed to grow normally in order to produce healthy stock for the following seasons planting.

"ELIZA LONDON SHEPARD," *The Dahlia Beautiful. The greatest deep glowing orange gold. See 2nd cover page.*

Wanamaker a "Wonder Plant" in North Carolina

A customer in Whittier, North Carolina, writes:—"Just want to tell you of my success with your Dahlias. Fort Monmouth, 14 in. blooms, Jane Cowl, 11 in., Rodman Wanamaker with 45 blooms at once, averaging 8 in. None of these were pruned nor disbudded. Roman Eagle, Wizard of Oz, Zeus, North's Yellow and Altamont were all perfect beauties and a monstrous size. Thank you for a square deal on all orders I sent you."

Eliza London Shepard Leads

A customer from Bedford, Indiana, under date of October 14, 1931, writes:—"I just want to tell you of my wonderful success with Eliza London Shepard. It has been my heaviest bloomer, lovely large blooms and admired by everyone; never was bothered with insects, and this late in the season it is still full of fine buds and blooms. It is the best Dahlia I ever grew."

"TY" IS NO QUITTER

A lady in Brooklyn, New York, wrote under date of December 4th:—"Will you kindly advise me what to do. My Dahlias are still in the garden; we have had no frost as yet and they are still growing. The Ty Cobb is still in bloom. Shall I dig them up or leave them in the ground until frost kills them? (We of course advised her it was safer to dig at once.)"

FIRST IN WINDY CITY

A lady from Chicago wrote under date of October 29, 1931:—Want to thank you for the Hoover plant you sent in place of the one that died. We had a beautiful flower on it. My mother sent "Marie" to the Garfield Park Show this summer and won first prize. Please send me a new catalogue as soon as ready.

Blooms at Expense of Roots

Where customers want plants to make roots, we have always advised small hard plants in preference to large soft ones. The following letter from a customer in Indiana, under date of November 30th, tells the story:—"I just got done digging my Dahlia roots. It has been so pleasant here, the sun was shining almost every day with just light frosts not doing very much damage to the Plants. You remember I bought four plants of you last Spring. They all grew fine in every way. The City of Trenton had 9 flowers on it at one time which measured 9 inches to 11 inches, but the roots were shy, only fibrous roots, had a very strong stalk and a very large crown. The plant and flowers are all that one could wish for; but, there were no tuberous roots to keep over. King Midas has two nice roots, Ty Cobb has 4 and N. J. S. C. C. has 5 very nice roots." A young soft plant kept growing will make a wonderful plant and the finest of blooms, but very apt to be like the City of Trenton mentioned. To insure roots it is much better to check or harden the plant, then cut back to allow fresh growth to start, then by giving thorough cultivation, with proper watering and fertilizing you will get good roots, as well as flowers.

"TY" is Marvelous in Alabama

A customer in Birmingham, Alabama, writes under date of November 4th, 1931:—I received two plants from you on July 3rd, Ty Cobb and N. J. S. C. C. Ty Cobb has made a nice plant and I have cut 5 gorgeous blooms from it. I believe Ty Cobb is the richest bloom I ever raised and the blends could not be improved. All in all it is a marvelous Dahlia. Will want more Ty Cobbs next season.

Ray Warner Greater Bloomer, but Edith Eastburn Simon More Beautiful

We quote from a customer in Wheatland, Pa., to whom we sent one plant each of Ray Warner and Edith Eastburn Simon for trial. "The Ray Warner is one of the greatest bloomers I ever saw, and was continuously in bloom from the middle of July until it was killed by the frost. I won second prize with it at the Sharon Flower Show, against all classes, and the blooms were nearly two weeks old. The temperature was around 95 in the shade during the heat wave. The Ray Warner stood up better than some of the other contestants which were cut the day before and wilted down before the show was over. I won first prize from a basket full of assorted blooms which were adjusted the most beautiful in the Show. I have had wonderful success with the Edith Eastburn Simon, which I think is more beautiful than Ray Warner. Some of the blooms measure 9 in. across and between 4 and 5 in. thick, with long cane stiff stems. My other Dahlias were beautiful and I sure had some fine flowers on them. I will order from you again next year, because Peacock Dahlias are always what they are represented."

A Voice From Ohio

From Springfield, Ohio, a customer writes under date of November 4th:—You will pardon me for taking up your time, but I just wanted to tell you that I never had so much pleasure out of anything, nor had greater success with anything that I did with the Dahlia plants I received from you last Spring. Hundreds of people visited my home to view them, and each one remarked that they were the most gorgeous Dahlias they had ever seen. Most all of them produced flowers far above the description that you gave them.

FREE!—Your Own Selection of Varieties—FREE!

In the past, we have added extra roots of our own selection, which in many cases were duplicates of what the customers already had. Also, many wrote asking for changes in collections as they had some of the varieties. So to avoid above and to allow every one to make his own selection, we have listed below a very comprehensive collection of the very best, of their types and classes, that we grow in large quantities.

On any and all orders selected at the regular price, you may select from the following list to the amount of $\frac{1}{4}$ extra. For example on an order for \$4.00, you may select to amount of \$1.00 from list below. On an order for \$12.00, you may select from this list to amount of \$3.00 extra.

NOTE.—This does not apply to any Special Offer, Collection or special quotation; but to any and all varieties at the regular catalogue price. The extra varieties must be selected from the following list.

SPECIAL.—To any one wishing to order the above collection complete, we will send one strong root of each of the 36 varieties, labeled, for \$25.00.

Every root goes out with our iron clad guarantee of entire satisfaction. It is not so much this guarantee that has made us the largest growers of dahlias in the world as the superiority of our stock, which makes such a guarantee possible, and our quick and cheerful adjustment of anything that is not satisfactory.

We also wish to acknowledge and thank our thousands of customers for their letters of thanks and appreciation. We appreciate your letters of praise for our dahlias, for your success is our success. We also appreciate your writing us of any failure, as in this way we learn many things about different varieties, in different locations, under different soil and climatic conditions.

EIGHT EXQUISITE PRIMULANUS HYBRIDS

These are the orchid like flowers so much admired, because of their long graceful spikes and brilliant colorings.

ALICE TIPLADY. A soft coppery bronze. The finest of its type; large size; splendid form and texture.

BUTTER BOY. Rich yellow with bright red markings, a beautiful and effective variety.

MAIDENS BLUSH. Enchantress pink flowers of finest form on stiff slender stems. The most beautiful pink.

MYRA. Salmon scarlet on yellow ground; large flowers, bright and effective.

PRIMULANUS. A rare species from South Africa. An exceedingly early bloomer, with long spikes of primrose yellow flowers.

SALMON BEAUTY. Deep salmon, with salmon yellow throat; large flowers on long graceful spikes.

SIMPLICITY. A beautifully formed flower, and well placed on long spikes; color, clear lemon yellow, with distinct red throat markings. Very effective.

SOUVENIR. Pure, clear golden yellow. The most beautiful yellow in Gladiolus. Any of above, 5c. each; 6 for 25c.; 12 for 45c.; 25 for \$0.85; 100 for \$3.00.

SPECIAL MIXTURE of above varieties for \$2.50 per hundred; \$22.50 per thousand.

WALDHEIM SUNSHINE I. D. Size 12" x 4". Height 6 feet. Color, deep golden yellow, shading to chrome yellow at the center, while the reflex is lightly suffused scarlet, giving a deeper tone at the center. The form, as shown in the illustration, is everything that can be desired. It has great depth with a full high center. The flowers are always perfectly double until killed down by late frost. Note the giant flowers are held facing to upright on stiff stems. Note the exquisite formation of the flower in above photograph held so regally on the cane stiff stem. Waldheim Sunshine is a winner everywhere. It was in the 1927 Honor Roll, again in 1928 and the list of immortals in 1929. It is not only an outstanding flower but a very strong vigorous grower and good root maker. Field-grown roots, \$5.00 each; strong plants, \$2.50 each.

BOOK "THE DAHLIA"

By Lawrence K. Peacock

A practical treatise on the habits, characteristics, cultivation and history of the Dahlia. A book which everyone can read and enjoy. It is really an outline of the history and development of the Dahlia from information gleaned from the old master growers of Europe and America up to the writer's entry into Dahlia Growing in 1884. It gives the richness of his experience up to the present time.

A book of 124 pages, and in addition 15 full pages of interesting and instructive illustrations.

It is the last word in Dahlia Growing. By mail, postpaid, \$1.40.

PEACOCK DAHLIA FARMS

DAHLIALAND

NEW JERSEY

N. J. S. C. C. 1. D. Size 10" x 5". This is the New Jersey State Chamber of Commerce, and in a Dahlia way about as big as the name. It is a monster of the Bashful Giant type but a larger flower and much stronger grower. It was exhibited at the annual meeting at Newark, by request and named by President Hamilton. It is big in every way. You see what a beautiful high center it has and the depth of the flower by the tier after tier of back petals; then the color is most charming, that exquisite shade called orchid. The flowers have great substance and keep well. The plant is a strong sturdy grower and a very free bloomer for so large a flower. It is a sturdy rather than a rampant grower, which accounts for its fine keeping qualities. Roots, \$2.50 each; plants, \$1.25.

SPECIAL OFFER No. 7. One strong root each of N. J. S. C. C. and Ty Cobb, for \$4.50.

SPECIAL OFFER No. 8. One strong plant each of N. J. S. C. C. and Ty Cobb, for \$2.25.

This is a most uniquely contrasting collection. N. J. S. C. C. is the most delicate orchid color, on a massive heavy flower, while Ty Cobb, the most colorful figure in baseball, is the most exquisitely formed, yet the most richly colorful of all Dahlias. The reproduction on page 10 gives you only an idea; you must see the plant blooming in its rich glowing colors, and you will understand its appeal to Ty Cobb.
